Website https://eeelijahhh.github.io/

Courteous and enthusiastic web developer with over half a year by self-taught in frontend development and a passion for creating responsive and adaptive websites. I firmly believe in writing elegant, clean and efficient code. Passionate and hardworking with a tendency for meeting deadlines. Enthusiastically devoting every day to gain new knowledge in web development, particularly in frontend. With great pleasure want to show my skills on the real projects, continue to develop in frontend development more efficiently and never stop there.

Skills

- Strong knowledge of HTML, HTML5 semantics & fully valid code

- Converting from PSD (Avocode, Figma, Adobe XD) to HTML code
